

Setup Opal-RAD Workstation for viewing - Internet Explorer 11+

NOTE: Internet Explorer must be used, all other web browsers are not compatible for full viewing*

1. Open Internet Explorer Browser
*If using Windows 8/10, ensure you open Internet Explorer from the 'Desktop' and not the 'Start' (tile) page
2. Type the location of the Server in the Address bar:
(ie. http://OPAL_QC/opalweb/login.aspx or <http://IP Address/opalweb/login.aspx>) and hit Enter

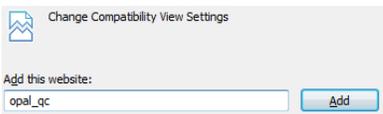

NOTE: You may see the mOpal login screen, this is normal and will be corrected below

If you receive a prompt, select 'Turn on Intranet Settings'

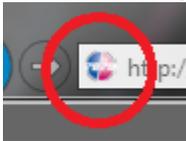

3. Enable 'Compatibility View'

1. Look for the Tools button . It will appear in top right side of the browser window
*if you do not see this, use 'Alt' and select 'Tools' dropdown, continue below
2. Click the button and select 'Compatibility View settings' option
3. Click the 'Add' button

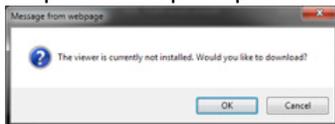

4. Click 'Close'

4. Restore down the browser window (so it is not full screen and you can see some of the desktop)
5. Select 20/20 logo/icon to the left of the address bar, click and drag it onto the Desktop to create a shortcut

6. Login to Opal-RAD at the login screen
7. You may be prompted to install '**OpalViewer**'. This is a safe program. Click OK to allow install
If OpalViewer prompt does not appear: Click upper right, 'Download Viewer - 2.x.x.x' to install

8. After OpalViewer is installed, you may be asked to allow '**OpalWebKicker**'. This is necessary for viewing software to run correctly

Click 'Allow'. The session might log you off, this is normal. Simply log back in

9. Your viewer is now complete

*mOpal is available for other browsers as well as mobile and smart devices. See website or contact 20/20 Imaging for details
